Greenwatt Quality Policy

As part of our Quality Management System Greenwatt commitments to:

1. A Business Model which ensures High-Quality Energy Efficient retrofit works based on each Customer's needs.
2. Consistently achieve high levels of Quality & Customer Satisfaction through the data gathered by our Quality Management System.
3. Operate a Quality Management System to check, verify, improve, and gather data for the purpose of Continuous Improvement.
4. Compliance with all relevant Legal Requirements, Construction Standards, Best Practice Guidelines and SEAI Requirements
5. Ensuring the provision of highly skilled resources to deliver our policy objectives.
6. Communication of our Quality Policy to pertinent Stakeholders such as Employees, Sub Contractors, Technical Service Providers, Suppliers, Homeowners, and the SEAI.

Martin O'Reilly
Director Greenwatt Limited
